Growing Great Garlic

11 am - 12 noon

Join us as we share knowledge and enthusiasm for growing great garlic, one of the easiest crops you can produce in your back yard. Nancy grows over 150 heads of garlic- some is sold at Natureworks for seed garlic and the rest she uses for cooking throughout the year. Garlic is planted in the late fall. This workshop is perfectly timed to help you grow a great crop of garlic that you will harvest next July!

Saturday, September 26th

Planting the Fall Garden to Support Migrating Monarchs

9:30 – 10:30 am

In Connecticut we nurture and raise the final generation of monarch butterflies that migrate all the way to Mexico. It is our job to provide them with plenty of nectar flowers as they make their way down from Canada and across the United States on their 3000 mile journey to their wintering grounds in Mexico. These special plants also help to extend the beauty of the season by adding gorgeous color to your fall garden.

Sunday, September 27th

Kokedama Garden Art

11:30 – 12:30 pm

What?? In this hands-on workshop you will learn to make your own Kokedama moss ball., a centuries old Japanese form of planting somewhat related to bonsai. You will plant up a fern or other suitable plant in a moss ball that you create. Please call to pre-register, \$15 fee.
