

PROJECT + RESOURCE

“Project Resource” is an initiative designed to help Episcopal congregations become more deeply engaged in the areas of financial development, membership growth, and the spirituality of fundraising and stewardship.

We are “piloting” Project Resource in the Diocese of Nebraska by offering totally free consultation to congregations who want to partner with one of our Project Resource Team members to develop an excellent parish stewardship campaign in the coming year. Every congregation in the Diocese is encouraged to apply, and six representative parishes will be selected. There are two pre-requisites to applying:

1. If your congregation is selected, your rector and wardens must agree to see the project through, working with your consultant for close to one year as you wrap up your 2015 stewardship campaign, launch the 2016 campaign, and reflect on its success.
2. If your congregation is selected, you must commit to developing your own Project Resource Team and “paying it forward” by offering free consultation to another congregation in developing their 2017 stewardship campaign. By the end of your consultation period, you will be fully empowered and equipped to do this work – that’s our promise.

Please fill out the application on the opposite side of this sheet
