Jeff Erle is the CEO of MobilityWare, Inc. a leading mobile games company which has amassed nearly 300 million downloads from its games portfolio including such classics as Solitaire, Blackjack, FreeCell, and Spider Solitaire. Based in Irvine, CA, MobilityWare delivers tens of millions of ad impressions, and opportunities for in-app purchases, across the globe every day. With industry-leading user retention rates, the company has enjoyed sustained success across the spectrum of mobile devices and platforms including Apple, Android and Amazon.

Jeff has an extensive background managing companies in software development and other IT services. He has been the VP/General Manager, President, or CEO of numerous companies including ADP, Western Digital, Litton Industries and MFLEX, as well as running his own consulting practice assisting companies with developing long-term strategies, operational excellence and guiding exits.

Originally from New Jersey, Jeff attended The Johns Hopkins University in Baltimore, Maryland where he received his BA in Economics. He is also an active angel investor, and for five years has been a member of Tech Coast Angels, the largest angel investing group in the US.
