

THE KENTUCKY PERSON-CENTERED CARE PROGRAM FOR LONG TERM CARE

The Kent School of Social Work at the University of Louisville received a CMP grant to undertake a program to improve resident quality of care through increased use of Person-Centered Care practices. These initiatives and activities will include:

Each Leadership Initiative facility will have **free access to monthly PCC webinars with Carmen Bowman. Slots still available for those interested.**
- Four two-day Regional PCC Conferences across the state for LTC with free registration for up to three (3) representatives from each certified nursing home requiring at least one CNA to attend. Registration and food are covered for the two days (lodging not included).
