

# LINKTEMP™

## Non-Contact Infrared Thermometer

**Provides quick & accurate measurement  
of core body temperature**

- ◆ No probe covers required – significant annual savings
- ◆ No contact with resident's skin reduces the risk of cross-contamination
- ◆ Ideal for sleeping or combative residents
- ◆ FDA cleared, clinical-grade thermometer for multi-patient and individual use

## FEATURES

- Touchless operation in one second from 1.2 - 2 inches distance from forehead
- Ionic silver technology protects against touch contamination
- Two-color backlit LCD
- Stores the previous 32 temperature measurements
- Temperature can be displayed in either °F or °C
- Automatic power-off (30 seconds) to conserve energy
- Modes for body, surface and room (ambient) temperature
- Visual/audible alarm if temperature exceeds 100.4 °F
- Performs up to 100,000 readings

LMP Item #: LMP001  
2 AA batteries included

## VALIDATED ACCURACY

The LinkTemp non-contact thermometer has a validated accuracy of +/- 0.2 °C over the clinical range of valid temperature.\*

\* Standard for ISO 13485
