

## Motion to Allow for Online Collection of Dues

### Motion:

That the WBCCI constitution be amended to allow for electronic payment of International Dues to Headquarters using the WBCCI website. To accomplish this the following Constitution Articles need to be changed as indicated.

**Article VI, Sec 2 B:** Strike lined through text.

Ownership, except as otherwise provided herein, of a recreational vehicle manufactured by Airstream, Inc., as defined in this Article, and the payment of annual Unit and International dues to a Unit is prerequisite to retaining membership as a Regular Member.

**Article VI, Sec 2 B:** Will then read:

Ownership, except as otherwise provided herein, of a recreational vehicle manufactured by Airstream, Inc., as defined in this Article, and the payment of annual Unit and International dues is prerequisite to retaining membership as a Regular Member.

**Article XIV Section 2:** Strike lined through text deleting the Section.

~~The International Club dues of members, except Members at Large, shall be collected through the units of the club, and in the case of a unit in the process of formation, through the provisional unit and all International dues so collected shall be forwarded to International Club Headquarters. The International dues of Members at Large and the established surcharge shall be collected by International Club Headquarters.~~  
(6/30/95) Article VI

**Rational:** Currently WBCCI requires each Unit to collect and send a member's International dues to Headquarters WBCCI. By allowing the payment of International and possibly Unit dues using an online system, implemented on WBCCI.org, members will enjoy a new convenience and there will be an increase in efficiency for the Club. Article VI, Section 2B content is already covered in the existing bylaws. (Article IV, Sec. 1ID and Article VI, Policy Sec. E)

Additional changes will be required in the Bylaws and will be done if this amendment motion is adopted.

**Financial Impact:** There is a minimal transaction cost, but as all Units move toward electronic collection of dues and or reporting to Headquarters there should be considerable savings of time at Headquarters in dealing with renewals and corrections to the database. This increased efficiency should offset the transaction cost.

**Note: Passage will NOT automatically imply the immediate implementation of dues collection electronically by Headquarters. It only removes the constitutional language that creates a barrier to doing so in the future.**
