

KDS Drama Club Production of "Edelweiss"

"Edelweiss" is a beautiful story detailing what life was like for young women living in Nazi Germany. On a day to day basis for these girls, faith is shaken, friendship is tested, and fear is alive. Fifteen KDS student actors and three tech crew students worked diligently to bring this story to life. The students put on two night performances and two performances during the school day for the students. Students attending the play were intrigued by the story and had wonderful things to say about the performance.

While life is already hard for the students, it is not made easier when the headmistress, Frau Decker is constantly watching their every move.
