

Halloween Happenings in Pre-K

KDS teacher Chellee Bailey and her pre-kindergarten class had a wonderful time celebrating Halloween while honing the fine motor skills of the four-year-olds.

Brantlie Downs is shown above "hammering" her pumpkin. This activity helps the students with their fine motor skills. The children loved the hammers and were so excited about getting to wear the goggles.

Students built haunted houses with blocks covered in paper and creatures taped to wooden blocks.

Exploding Pumpkins! Each student was given a miniature pumpkin, a small cup of baking soda, and a small cup of tinted vinegar. The students first poured in the baking soda and then added "the magic green potion." Of course, the pumpkins EXPLODED! It was super fun!
