

KDS Holds Kindergarten and Pre-K Registration

Kindergarten and Pre-K teachers recently spent the day with students and parents of 4 and 5 year olds who will be their students this fall for the 2016-2017 school year. There were forms to fill out, teachers to talk to and meet, and several fun activities for the youngsters. Seventy children signed up for kindergarten and 56 signed up for Pre-K class. There is so much interest in the Pre-K program, an additional class has been added for the coming school year. Of course there will be several others who will sign up as the time counts down to August and the beginning of the new school year.

The children are tested using specific screeners for their ages to determine their readiness to begin their education.

Shown here are Deedee Eller (L) and Laci Barnes (R) with two of their new students.

The children worked puzzles and participated in other fun activities while the parents filled out paperwork.

Pre-K students will be members of the Class of 2030, and Kindergarteners will be in the Class of 2029.
