

HELP SAVE THE LIFE OF A LOVED ONE!

LEARN HOW TO RECOGNIZE AND PREVENT AN OVERDOSE!

Our children, siblings, spouses or other loved ones are abusing opioids like Oxycodone, Hydrocodone and Heroin at alarming rates; And too many of them are dying from it.

If you don't think it can happen to your child or loved one, think again.

Learn what to do in case of an overdose and how to administer the life-saving, overdose-reversal agent called Naloxone, or Narcan.

Narcan is the antidote to an opioid overdose and you can get your kit free!

It could be the difference between life and death.
