

Please join us as we continue celebrating Bothell's downtown revitalization!

We invite you to a groundbreaking ceremony on **Thursday, April 14, 2016**, at 10 a.m. to mark commencement of the Multiway Boulevard Project final phase.

A majority of the west side of the Multiway Boulevard was completed in 2014. In 2017, when the entire project is completed, pedestrians will be able to cross back and forth easily between the historic downtown on the east side of Bothell Way and the newly developing west side. The tree-lined boulevard design balances competing needs for roadway capacity, local access, street parking, urban density, and pedestrian comfort. Motorists, bicyclists, pedestrians, and transit riders will share the benefits of multimodal transportation options in downtown Bothell.

April 14th, 2016 at 10am
Bothell Way NE between NE 183rd & NE 185th Streets
Please RSVP to Catherine Jansen
