Poster Session Guidelines
The Microcirculation in Acute Infections Symposium

The poster session will take place in the Levin Hall Foyer on the second floor from 5:00pm to 6:30 pm on Tuesday, April 28th. Presenters may put their posters up during breaks or lunch before 5:00pm on Tuesday. Complimentary beverages and light snacks will be available during the poster session. This reception is a prime opportunity for attendees to circulate among the posters.

All posters should be removed by 9:30am on Wednesday, April 29th.

**Poster Dimensions**
Authors scheduled in poster sessions are assigned poster board space (six feet wide by four feet high or 1.8 m x 1.2 m) for displaying text and figures (graphs, charts, and tables). Please remember to make text and figures readable by viewers five feet away. Posters cannot exceed these dimensions. The boards are corkboard (not felt) and are on wheels. We will provide pushpins. Velcro fasteners will not work on the boards.

**Poster numbers**
All poster boards will have numbers in the upper left corner and will be in numerical order, so please use your assigned number and do not change boards. Assigned numbers will be listed in the program book.

**Special Requests**
If you have power needs for audiovisual equipment, please let us know immediately; contact Angela Culler (anculler@utmb.edu). Unfortunately we do not have the means to print your poster on site.

**Author Presence**
Presenters are asked to be at their poster boards during a scheduled 45-minute presentation time, and posters are to be mounted for the duration of the two-hour poster session. Presentations should only be given by an individual who is an author on the abstract.

**Photography**
Photography is prohibited on the poster floor.

Dinner will be served in the Levin Hall Dining Room (also on the second floor) following the poster session.
