PGCPS DEPARTMENT OF CAPITAL PROGRAMS

PGCPS Community Meetings: Understanding the FY2017 Educational Facilities Master Plan

Prince George's County Public Schools (PGCPS) invites students, families, and community members to attend one of three community meetings to learn more about the FY2017 Educational Facilities Master Plan (EFMP). The EFMP is used to develop the annual and six-year Capital Improvement Plans (CIP). The April 27 Northern Planning Area meeting will include information on new middle school construction.

The PGCPS Department of Capital Programs will host the meetings. Representatives will review the school-by-school schedule for renovating and replacing more than 133 schools; constructing new schools; reorganizing sixth grade to middle schools; boundary changes; and planning studies to consider consolidations and other programs. The Prince George's County Board of Education is scheduled to vote on the FY2017 EFMP on May 12.

Interpreting services for Spanish-speaking families will be provided at the Northwestern and Oxon Hill meetings.
