Istanbul, Turkey**

TRAVEL PLANNING

Please review the following information before making your flight and hotel arrangements.

AIRPORT INFORMATION

Istanbul has two international airports: Atatürk International Airport (IST) and Sabiha Gökçen Airport (SAW).

Atatürk International Airport is located on the European side of Istanbul. Most major international flights land there. The airport is about 65 km from the Summit venue.

Please note that the Summit venue is much closer to Sabiha Gökçen International Airport (SAW) than to Atatürk International Airport. Sabiha Gökçen Airport is located on the Asian side of Istanbul just 10 km from the Composites Summit venue. Although Sabiha Gökçen Airport is considerably smaller in size, many airlines such as Pegasus, Turkish Airlines, Sun Express, Easy Jet, Condor, and German Wings serve this airport.

ARRIVALS AND DEPARTURES

Shuttle

To get to and from Atatürk International Airport or Sabiha Gökçen Airport, a shuttle bus service run by Havataş operates from both domestic and international terminals to and from Taksim square, Kadıköy and Yenikapı Ferry. Buses are just outside the arrival hall at both airports. The cost is between 10-13 TL (Turkish Lira).

Please see the schedules and further details to or from Atatürk International Airport and Sabiha Gökçen Airport: <http://havatas.com/>.

Taxi

Taxis are available 24 hours a day. Passengers should only take metered taxis and ask drivers to turn on the meter. Rates from Sabiha Gökçen Airport to a hotel on the Asian side will range from 10 TL to 70 TL.
