

# **Clark County Family Courts in Partnership with Dr. Charles Zeanah and the Quality Parenting Initiative Live Web Event Invitation**

---

## **March Webcast Focus**

### **“Developmental Science and Child Welfare: Moving Towards a More Child-Centered Court Improvement Practice Model – The Critical Role of Transitions”**

**Thursday, March 17th, 2016  
12:00 – 1:00 PM Pacific**

**Presented by: Charles H. Zeanah, M.D., Institute of Infant and Early Childhood Mental Health,  
Tulane University School of Medicine and Judge Frank Sullivan, Clark County Family Courts.**

The session in January reviewed protective settings for placement as they related to our case study. Also reviewed basic development of attachment and the factors affecting quality care. The March session will focus on the critical role of transitions. Many factors may influence decision-making in child welfare, but we believe an important and underutilized source of information is what we know from developmental science about what is helpful and harmful to children's development. Future session will consider implications for siblings.

Our next webcast is scheduled for May 19th, 2016 from 12:00 – 1:00 PM.
