Rediscover Your Christian Heritage

Beginning at the National Monument to the Forefathers, hear the faith story of the Pilgrims and how their faith shaped the founding and development of our country. As you walk around the monument, you will be moved by the stories of sacrifice and suffering, sadness and joy, friendship, faith, love and survival.

Then put on your walking shoes as you follow the footsteps of the Pilgrims as you walk along the historic district of Plymouth. Hear about the challenges they faced, learn the truth about the part their faith in God played in their journey to America and in their daily life. Did communal living work? What happened when they changed to land ownership?

Visit the monuments around the waterfront and listen as history comes alive and stories from the past change your paradigm. Learn about the men and women whose stories will increase your faith.

Communal living did not work. Governor Bradford knew it

would not. Find out what his ideas were and why they worked. Learn about Pilgrim economics. Discover what launched the beginning of free trade and capitalism in our country. What was the relationship between the Natives and the Pilgrims? What can we learn from our ancestors? Discover the answers to these and many other questions as you travel with us on a walk through history.

Your tour will end at the Jenney Museum where you can see our current exhibits, and visit the Museum gift shop where you will find many books on the true story of America's beginnings.

We want to encourage you to bring your church family. Space is limited. Reservations are required. Contact Nancy Martin at 508-747-4544.
