

## Farewell Message from: Therese Greenfield, Credit Manager

Gibson has provided me with an opportunity to stretch myself and my capabilities. Having had many jobs over the years, Gibson has been a place where as a group we have put in front of us: a task, a problem or goal. Our part of the work has been about the willingness to be a part of: the solution, the process and the accomplishment.

I am proud of my contribution over the past thirty years and have loved the energy of Gibson as a whole. I am so appreciative of the people I have worked with and the friendships I have made. The company, and most importantly the people (management and coworkers), have all supported me in so many tangible ways.

I keep a reminder on my refrigerator: *"Life is for the curious"*. I am looking forward to some rest and lots of recreation with the focus on continued "creation." I am eager to welcome the world of opportunity before me.

Best to all,

Therese

*Therese with 7 of her 8 Grandchildren*

**Therese,**

**CONGRATULATIONS AND GOOD LUCK ON YOUR RETIREMENT! -  
Your friends & family at Gibson Engineering!**
