# SCC WORKFORCE PROGRAM DEVELOPMENT OVERVIEW

November 13, 2015

# **Scope of Work and Timelines**

# NY DSRIP Domain 1 Workforce-Related Milestones

There are a number of DSRIP workforce-related goals & objectives that must be achieved. Each of these areas will be addressed as part of the Workforce Strategy engagement.

## Workforce Strategy

Milestone #1: Workforce Strategy Budget Updates

Milestone #2: Workforce Impact Analysis and Updates

Milestone #3: New Hire Employment Analysis and Updates

Milestone #4: Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements

Milestone #5: Define target workforce state

Milestone #6: Create a workforce transition roadmap for achieving your defined target workforce state

Milestone #7: Perform a detailed gap analysis between current state assessment of workforce and projected future state

Milestone #8: Develop training strategy

## Governance

Milestone #8: Finalize workforce communication & engagement plan

## Cultural Competency & Health Literacy

Milestone #2: Develop a training strategy focused on addressing the drivers of health disparities (beyond the availability of language-appropriate material) – for clinicians and other segments of your workforce.

## Practitioner Engagement

Milestone #1: Develop practitioner communication and engagement plan

# **Workforce Current State Survey Development**

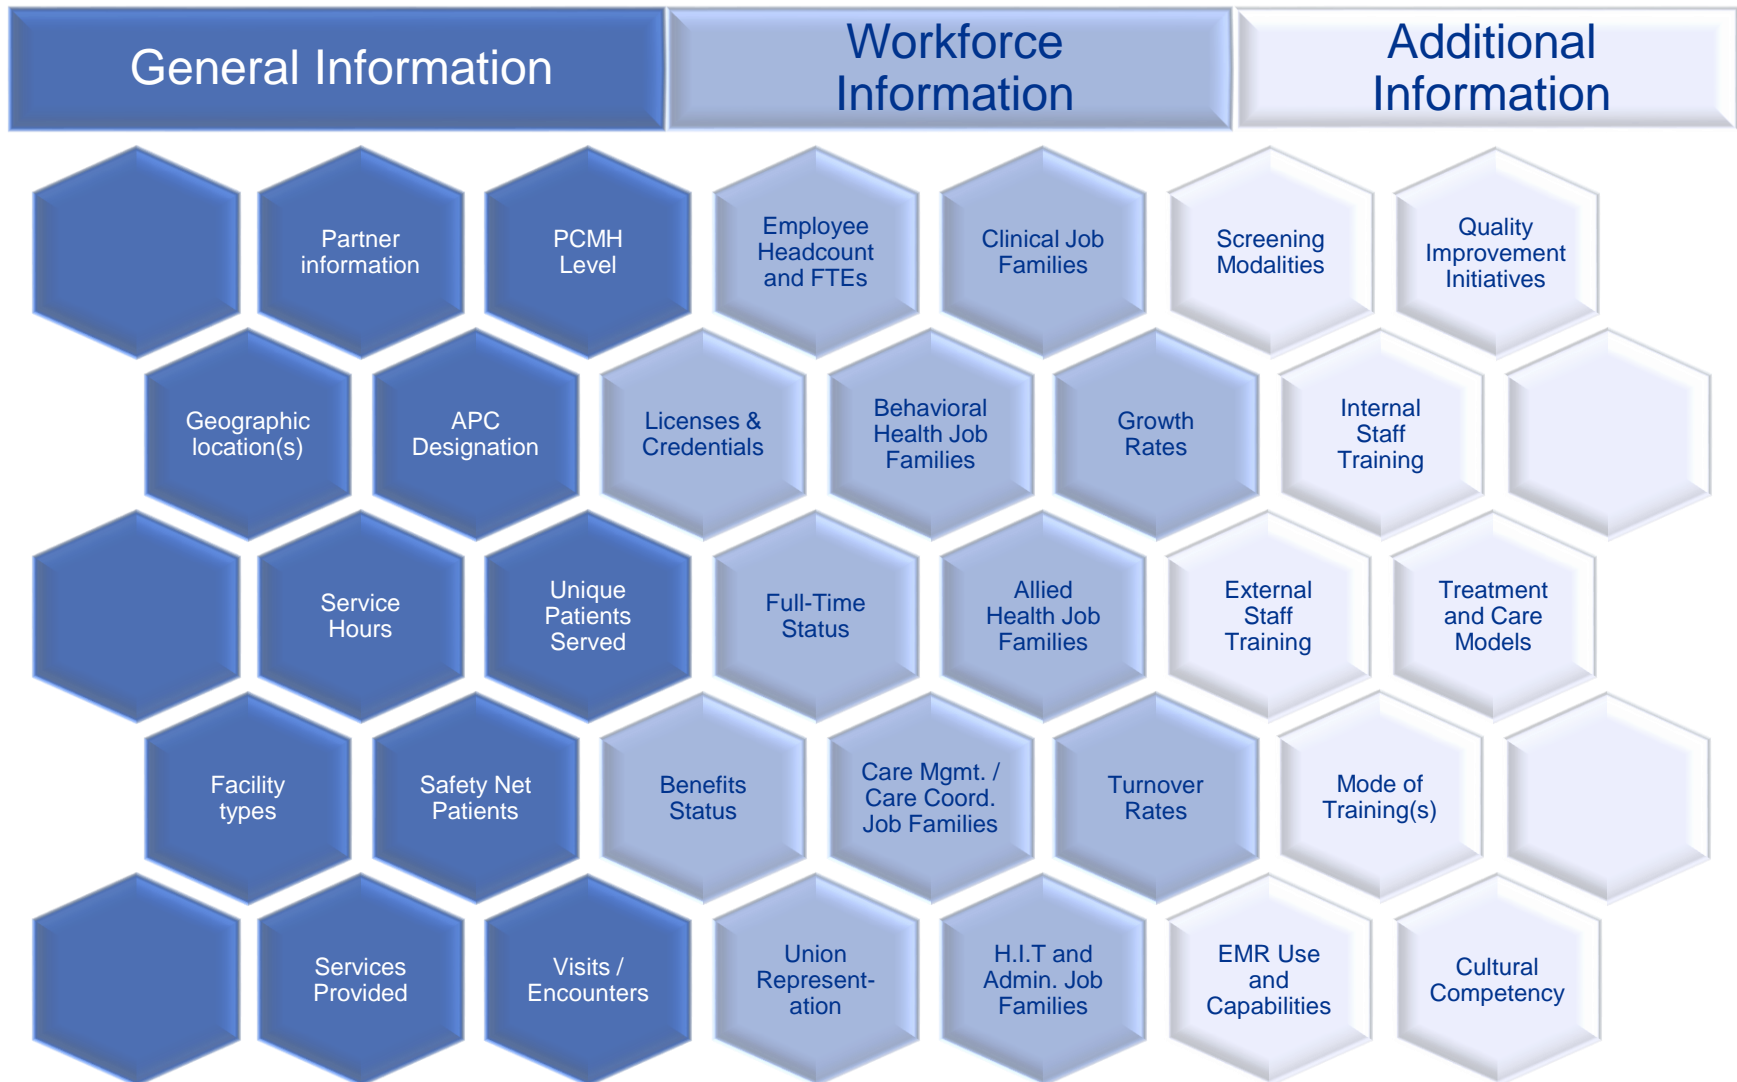

# Workforce Current State Survey Approach

## WHAT IS OUT OF SCOPE?

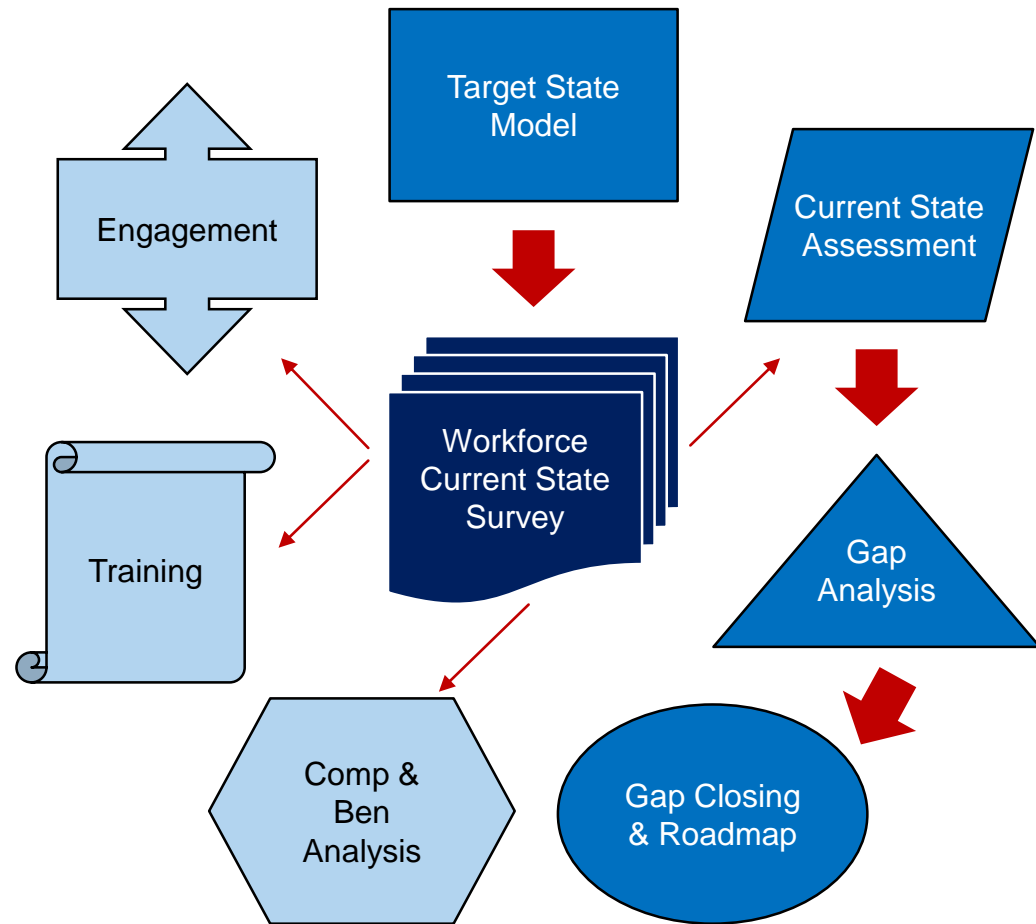

- Partner engagement and follow up -- PPS are expected to deploy resources to follow up with their Partners to complete surveys based on weekly survey monitoring; and to answer non-technical questions.

# Workforce Current State Survey Questions

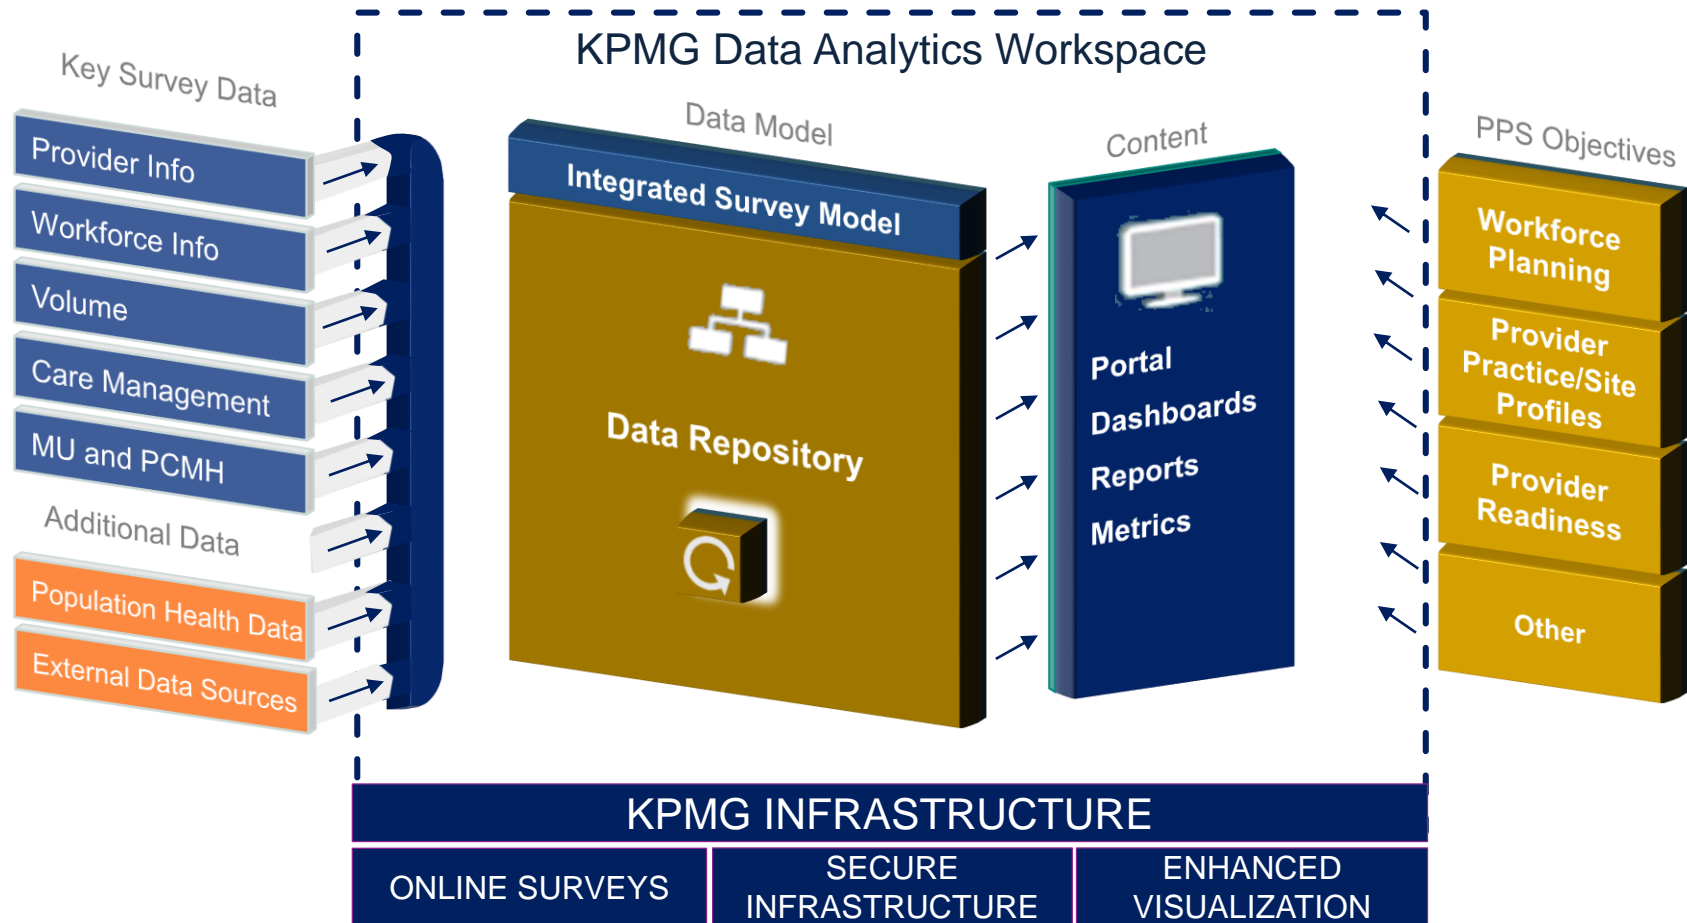

# Workforce Current State Survey Relevance

- The **Workforce Current State Survey** is based on the **Workforce Target State Model**
- The Workforce Current State Survey will be distributed to the SCC PPS partner organizations to get self-reported data and information to build the **Workforce Current State Model**
- The final questions will be determined by SCC and should consider the linkage to other Workforce Deliverables, namely, **Current State Assessment, Comp and Ben Analysis, Training and Engagement**

# KPMG Workforce Data and Analytics Workspace

# Partner Engagement

# Engagement and Training Activities and Deliverables

Raising awareness and preparing key stakeholders for changes to system, process, and organization is key to successful transition and adoption

1

## Stakeholder Analysis & Risk/Readiness Assessments

- KPMG will identify through interviews, focus groups, and/or surveys, readiness and change risks that may manifest in stakeholder resistance to the DSRIP changes.
- Identification of Stakeholder readiness and reactions to change coupled with an understanding of stakeholder influence and impact to the success of the transformation will be a critical input to planning engagement and communication activities.

2

## Leadership Action & Employee Engagement Plans

- With input from Stony Brook PPS, KPMG will identify leaders and influential peers at all levels as targets for individual action plans and to serve as change agents who will model desired behaviors and enable two-way communication throughout the transition.
- Based on the Stakeholder Analysis and Risk/Readiness Assessments, KPMG will recommend activities aimed at aligning partners and confirming support and adoption of the changes within the established Practitioner Engagement and advisory groups.

3

## Communication Assessment & Plan

- KPMG will assess current communication methods, targets, and plans to determine what is working well and how to improve on opportunities to proactively address areas of ongoing resistance across all partners and the community.
- Our team will build a proactive and interactive Communication Plan that will enable Stony Brook PPS to build awareness, understanding, buy-in, and ownership of the DSRIP Transformation in a timely, transparent, targeted, and tailored fashion.

Activity	Start Date	End Date	Status
Assess Current Communication Methods	2023-01-01	2023-03-31	Completed
Develop Communication Plan	2023-04-01	2023-06-30	In Progress
Implement Communication Plan	2023-07-01	2023-09-30	Not Started

4

## Training Assessment & Curriculum/WF Training Plan

- Based on our understanding of the current and future state workforce needs, KPMG will complete a detailed training needs assessment to identify gaps in skills and capabilities along with a Curricula Plan to identify types of learning opportunities to fill gaps.
- Using the training needs assessment as a guide, KPMG will develop a Training Plan to define audience groups, training methods and development process, roles and responsibilities, review and measurement processes.

Activity	Start Date	End Date	Status
Assess Current Workforce Needs	2023-01-01	2023-03-31	Completed
Develop Curricula Plan	2023-04-01	2023-06-30	In Progress
Implement Curricula Plan	2023-07-01	2023-09-30	Not Started

# Stakeholder Analysis and Change Risk/Readiness Assessment

## Targets:

1. Key stakeholders and leaders (e.g. project team members) who will have influence over workforce expectations & opinions
2. Workforce sampling to get a broad view at a grassroots level of where there are risks to program adoption and what expectations stakeholders have for how DSRIP will change the current state

Category	Example
Vision	What is the current understanding of why your organization has partnered with SCC to carry out DSRIP changes?
Business Case	What do you see as the benefits of DSRIP? What will success look like for your organization once DSRIP projects are fully implemented?
Leadership	How can leadership demonstrate their support for DSRIP?
Organizational Preparedness	Which projects will have the biggest impact on the organization and staff's day to day responsibilities? Does your organization have the required structure and resources to enable the project? What new skills or capabilities will be needed to enable and sustain the new processes and technology?
Organizational Reaction	Do you feel that your organization will react well to this change? If not, what type of information will they need in order to mitigate resistance/build support?
Competing Initiatives	Do you feel that there is enough priority given to the DSRIP projects or are there other priorities that may negatively impact the DSRIP projects?
Communication Needs	Do you (and your people) believe they are adequately informed and can effectively collaborate and add value over the life of DSRIP? What are expectations for frequency and content of DSRIP communications? Are there preferred communications channels / vehicles?
