Not currently a recipient of The Breast Journal? Now you can be!

The National Consortium of Breast Centers is proud to announce its new affiliation with Wiley & Sons Publishing, The Breast Journal. As a member of NCBC, we are now offering you the e-version of The Breast Journal for the low rate of \$125. Simply add The Breast Journal subscription to your shopping cart when you are renewing your membership online.

Overview, Aims and Scope

The Breast Journal is the first comprehensive, multidisciplinary source devoted exclusively to all facets of research, diagnosis, and treatment of breast disease. The Breast Journal encompasses the latest news and technologies from the many medical specialties concerned with breast disease care in order to address the disease within the context of a woman's total health. This editorial philosophy recognizes the special social, sexual, and psychological considerations that distinguish cancer and breast cancer in particular, from other serious diseases. This editorial philosophy recognizes the special social, sexual, and psychological considerations that distinguish cancer and breast cancer in particular, from other serious diseases. Topics specifically within the scope of The Breast Journal include:

- o Risk Factors
- o Prevention
- o Early Detection
- o Diagnosis and Therapy
- o Psychological Issues
- o Quality of Life
- o Biology of Breast Cancer

The Breast Journal is now completely digital which allows you to access research even faster. If you're not currently subscribing to the journal and are interested in receiving the e-version of The Breast Journal for the low rate of \$125 per year, please visit our website at www2.breastcare.org/
