

### Great Plains Tip: Writing Off AR Documents

Use the Write Off Documents window to write off outstanding credit or debit balance amounts for one or more customers. You can specify a write off limit and cutoff date, and whether to create one credit or debit memo for each customer or document. The debit or credit memos that you create will be posted and applied to the documents you're writing off balances for.

The screenshot shows the 'Write Off Documents' window. It has a blue title bar with the text 'Write Off Documents' and standard window controls. The window contains several fields and options:

- Writeoff Type:** A dropdown menu set to 'Underpayments'.
- Create One Writeoff per:** A dropdown menu set to 'Customer'.
- Writeoff Limit:** A text box containing '\$5.00'.
- Cut-off Date:** A text box containing '1/31/2007'.
- Customers:** A section with a dropdown menu set to 'Customer ID', a radio button for 'All' (which is selected), and two empty text boxes for 'From:' and 'To:'.
- National Accounts:** A section with two radio buttons: 'Create writeoff from Parent' (selected) and 'Create writeoff from Child'.
- Buttons:** At the bottom right, there are three buttons: 'Process', 'Preview', and 'Cancel'.

1. Change the System Date to the date you want used for Credit and Debit Memos that will be created.
2. Open the window: TOOLS>ROUTINES>SALES>WRITE OFF DOCUMENTS
3. Write off Type:
  - a. Underpayments: Write off when a customer pays less than the invoice amount. This automatically creates and applies a Credit Memo for the customer. Remember, it will use the system date.
  - b. Overpayments: Write off when a customer pays more than the invoice amount. This automatically creates and applies a Debit Memo for the customer. Remember, it will use the system date.
4. Create One Write off per:
  - a. Customer: Groups all balances together and creates one Debit/Credit memo to write off the balance.
  - b. Document: Creates one Debit/Credit memo for each document being written off.
5. Write off Limit: Choose the dollar amount limit for the search for items that will be written off.
6. Customers: You can select a range of customers based on:
  - a. Customer ID
  - b. Name
  - c. Class ID
  - d. Type
7. National Accounts: If you are using National Accounts, you can create the write off from the Parent or the Child customer record.

8. **Before you process, click PREVIEW!**
- This will allow you to review a list of the documents that the system is planning on writing off. Click on the Blue Underlined Write off Amount to zoom to the item that is going to be written off.
  - You can stop the system from writing off specific documents if you need them to stay on your aging if you are trying to collect. Simply uncheck the box next to the transactions you do not want to write off.

The 'Write Off Preview' window displays a table with the following data:

	Customer ID	Customer Balance	Writeoff Amount
<input type="checkbox"/>	<a href="#">ISNINDUS0001</a>	<a href="#">\$14,978.34</a>	<a href="#">\$0.00</a>
<input type="checkbox"/>	<a href="#">LAWRENCE0001</a>	<a href="#">\$23,642.79</a>	<a href="#">\$0.00</a>
<input checked="" type="checkbox"/>	<a href="#">MAHLERST0001</a>	<a href="#">\$34,289.30</a>	<a href="#">\$9.90</a>
<input checked="" type="checkbox"/>	<a href="#">POLKVAL0001</a>	<a href="#">\$21,461.08</a>	<a href="#">\$10.00</a>

Summary:

Total Writeoff Available	\$29.37
Total Writeoff Taken	\$19.90

Buttons: Unmark All, Mark All, OK

9. Note: The Write off will distribute to the account on the customer card. If this is blank, the write off will distribute to the account setup on the TOOLS>SETUP>POSTING>POSTING ACCOUNTS window. If this is blank, it will create the GL entry that cannot be posted until an account is entered.
