

The Rock Products Association Supports the Pima County Bond Election Propositions

The Arizona Rock Products Association (ARPA) supports the Pima County bond package as it relates to Economic Development, Flood Control Projects, Road and Highway Improvements, Tourism Promotion, Parks and Recreation, Public Health and Safety. Given the lack of Federal, state and local funding it is imperative to invest in the future of the region, providing much needed connectivity and support of commerce along with a full package of supporting initiatives that will make the region a destination for commercial development, new business starts and growth. Pima County is committed to accountability and delivery of key projects and this is one of many reasons why the ARPA Board lends it's endorsement of the following.
