

17 Soft Side of Satan

By Dr. Stephen R. Phinney

The Rothschild Connection (part ten)

- 1862** By April, \$449,338,902 worth of Lincoln's debt-free money has been printed and distributed. He states of this,

"We gave the people of this republic the greatest blessing they ever had, their own paper money to pay their own debts."

That same year, *The Times of London* publishes a story containing the following statement,

"If that mischievous financial policy, which had its origin in the North American Republic, should become indurated down to a fixture, then that government will furnish its own money without cost. It will pay off debts and be without a debt. It will have all the money necessary to carry on its commerce.

It will become prosperous beyond precedent in the history of civilized governments of the world. The brains and the wealth of all countries will go to North America. That government must be destroyed or it will destroy every monarchy on the globe."

- 1863** President Abraham Lincoln discovers the Tsar of Russia, Alexander II (1855–1881), was having problems with the Rothschilds, as well as, he was refusing their continual attempts to set up a central bank in Russia. The Tsar then gives President Lincoln some unexpected help.

The Tsar issued orders that if either England or France actively intervened in the American Civil War, and help the South, Russia would consider such action a declaration of war, and take the side of President Lincoln. To show that he wasn't messing about, he sent part of his Pacific fleet to port in San Francisco and another part to New York.

C. M. de Rothschild e figli closes the Rothschild banking house in Naples, Italy, following the unification of Italy. The Rothschilds use one of their own in America, **John D. Rockefeller**, to form an oil business called Standard Oil, which eventually takes over all of its competition.

- 1864** Rothschild, August Belmont, who by now is the Democratic Party's National Chairman, supports General George McClellan (a pawn for the Illuminate), as the Democratic nominee to run against President Abraham Lincoln in this year's election. Much to the anger of Belmont, President Lincoln wins the election.

Watch out Mr. President, assassination is on your door step!

1865 In a statement to Congress, President Abraham Lincoln states,

"I have two great enemies, the Southern Army in front of me, and the financial institutions in the rear. Of the two, the one in my rear is my greatest foe."

Later that year, on April 14, President Lincoln is assassinated, less than two months before the end of the Rothschild American Civil War.

More than seventy years later, Booth's granddaughter (Izola Forrester) reveals in her book on Booth, *"This One Mad Act,"* that he had been put up to this assassination by powerful interests in Europe through the Rothschild clan. And contrary to reports that Booth was later killed by the American authorities, he actually escaped to Europe and died in Calais at the age of thirty-nine.

Subsequent allegations, that international bankers were responsible for President Lincoln's assassination, would be made in the Canadian House of Commons, nearly seventy years later in 1934.

The person who revealed this was a Canadian Attorney, Gerald G. McGeer.

He had obtained evidence deleted from the public record, provided to him by Secret Service Agents at the trial of John Wilkes Booth, after Booth's alleged death. McGeer stated it showed that John Wilkes Booth was a mercenary working for the international bankers. His speech would be reported in an article in the *Vancouver Sun* on 2nd May 1934, which stated,

"Abraham Lincoln, the murdered emancipator of the slaves, was assassinated through the machinations of a group representative of the International Bankers, who feared the United States President's National Credit ambitions."

"There was only one group in the world at that time who had any reason to desire the death of Lincoln."

"They were the men opposed to his national currency program and who had fought him throughout the whole Civil War on his policy of Greenback currency."

Gerald G. McGeer also stated that Lincoln's assassination was not purely because the International Bankers wanted to re-establish a central bank in America, but also because they wanted to base America's currency on gold, which they of course controlled. They wanted to put America on a Gold Standard. This was in direct opposition to President Lincoln's policy of issuing greenbacks, based solely on the good faith and credit of the United States.

The *Vancouver Sun* article also quoted Gerald G. McGeer with the following statement,

"They were the men interested in the establishment of the Gold Standard and the right of the bankers to manage the currency and credit of every nation in the world. With Lincoln out of the way they were able to proceed with that plan and did proceed with it in the United States. Within eight years after Lincoln's assassination, silver was demonetized and the Gold Standard system set up in the United States."

This is a standard the United States uses to this day.

Following a brief training period in the Rothschilds' London Bank, Jacob Schiff (a Rothschild), arrives in America at the age of 18, with instructions and the finances necessary to buy into a banking house there. The purpose of this was to carry out the following tasks.

1. Gain control of America's money system through the establishment of a central bank.
2. Find desirable men, who for a price, would be willing to serve as stooges for the Illuminati and promote them into high places in the federal government - the Congress, Supreme Court, and all the federal agencies.
3. Create minority group strife throughout the nations, particularly targeting the whites and blacks.
4. Create a movement to destroy religion in the United States, with Christianity as the main target.

Nathaniel de Rothschild becomes Member of Parliament for Aylesbury in Buckinghamshire.

1868 Jacob (James) Mayer Rothschild dies, shortly after purchasing Château Lafite, one of the four great premier grand cru estates of France. He is the last of Mayer Amschel Rothschild's sons to die.

1870 Nathaniel de Rothschild dies.
