

# Attend the January 21<sup>st</sup> Superintendent Parent Forum!

## Rigor & Readiness: *Raising the Bar for Student Success through Standards and Assessments*

At this forum, we'll discuss DPS' results from last spring's CMAS: PARCC assessment and learn how schools are working to support academic achievement through academic standards, preparation and higher expectations. Attendees will participate in an activity to understand the transition from TCAP to CMAS and how the new assessments better support student success.

Parents will learn how to read their student's individual results using a parent guide and watch a video on high impact activities such as the Parent Teacher Home Visit Program and school-sponsored academic learning events for families that are linked to student achievement.
