"When I pick up the phone to make the call, and I hear the fear and desperation in her voice, the longing for understanding and for acceptance, for a non-judgmental listening ear, I know why I am a volunteer clergy counselor for Faith Aloud. Just by listening, just by accepting her and affirming her choices, we validate all women as moral agents, faithful to themselves, their families, and their God. This is how healing begins." -trained Faith Aloud clergy counselor
