

**If you see this sign, stay out.**

**There must be a visible sign at a central location with the following information:**

- (1)** What fields are being sprayed
- (2)** When they are to be sprayed
- (3)** Which pesticides are sprayed
- (4)** How long to keep out
- (5)** A chemical safety sheet.

**25 Feet:**

No person should be within 25 feet of pesticide application, treatment or equipment on a farm or orchard. \*

**18 years old:**

You must be at least 18 years of age to work with pesticides.

**Water-Soap-Towels:**

Must be available to all workers and pesticide handlers.

**Gloves & Masks:**

Must be provided before you handle pesticides.

**Respirator:**

You must receive a medical evaluation, respirator training and must be fit tested before using a respirator.

**No Retaliation:**

A worker can not be fired or mistreated for reporting violations of the Worker Protection Standard (WPS).

**\*In most cases.**

**Protect Your Health:**

**Are chemicals and sprays used where you work?** ☐

**Did your employer train you on pesticide safety?** ☐

**Do you know when your employer sprays the fields?** ☐

**Have you entered fields right after the spray?** ☐

**Does your boss ask you to handle pesticides or clean pesticide equipment without gloves?** ☐

**Does your boss ask you to handle pesticides or clean equipment without special training?** ☐

**Have you felt sick from pesticides like trouble breathing, or skin/ eye burning?** ☐

**Do you know what to do if you get pesticides on you?** ☐

**If you're concerned about answers to any of the above, contact us.**
