The Canadian Institute of Plumbing and Heating
Manitoba Region

General Meeting Luncheon

Planning for Growth and Change in Winnipeg

The presenters will describe recent population growth trends in the Winnipeg area, how this growth is being translated into development, and urban reserves as an emerging development type.

ABOUT THE PRESENTERS:

Andrew Ross has been a city planner for 8 years, starting at the Province of Manitoba and for the past 7 years at the City of Winnipeg. At the City he has been a long range planner and most recently has transitioned to development planning within the city centre area of Winnipeg. His role is mainly focused on guiding planning and design of infill and other developments, as well as adjustments to zoning by-laws.

Michael Pyl is a Planner with the City of Winnipeg whose work focuses on long range planning initiatives such as growth monitoring and the development of planning policy. Prior to assuming this role, he served as the district planner for the East Kildonan-Transcona community. A graduate of the University of Toronto's Masters of Science in Planning program, Mr. Pyl uses plumbing several times a day and is grateful when it works as it should.
