

Beta-Plus™

Beta-TCP™

Available in 90 or 180 tablets

For Healthcare Professionals Only

Beta-Plus™ is a source of organic whole beet concentrate with bile salts and Pancrelipase for digestive and biliary gastrointestinal support. Consider whenever the gallbladder has been removed or the need for supplemental bile salts is indicated.

►**Research:** Generally, bile salts are recirculated 2 to 3 times through the liver with each meal. Bile insufficiency has been associated with constipation, light-colored or clay-colored stools, greasy or floating stools, and generalized intolerance of fatty foods.

Recommend dosage is one (1) tablet with each meal as a dietary supplement or as otherwise directed by a healthcare professional.

Beta-TCP™ supports normal cholesterol to bile acid conversion and healthy bile flow. Contains digestive and antioxidant enzymes, vitamin C, taurine, organic beet concentrate, and the vegetable culture antioxidant enzymes, Superoxide Dismutase (SOD) and catalase for proper gallbladder function.

►**Research:** While bile salts have helped a great number of patients support normal digestive processes, they do not benefit those patients without bile insufficiency. Some patients produce adequate levels of bile; however, the bile they produce is too thick and thus may result in biliary stasis. Intolerances for fried or fatty meals, gas, bloating, constipation, post-prandial referred pain to the scapula, etc. are all functional signs that biliary function may be altered.

Recommend dosage is one (1) tablet with each meal as a dietary supplement or as otherwise directed by a healthcare professional.

Beta-Plus™

Beta-TCP™

For Healthcare Professionals Only

Conveniently dosed at 1 to 3 tablets per meal, **Beta-TCP™** and **Beta-Plus™** are available in bottles of 90 & 180 tablets.

Beta-Plus™

Supplement Facts

Serving Size: 1 Tablet

Servings Per Container: 90 or 180

	Amount Per Serving
Ox Bile Extract	100 mg*
Pancrelipase (porcine)	50 mg*
Organic Beet Concentrate ** (Beta vulgaris)(whole)	100 mg*
Superoxide Dismutase (from vegetable culture †)	20 mcg*
Catalase (from vegetable culture †)	20 mcg*

*Daily Value not established

Other ingredients: Cellulose, stearic acid (vegetable source), magnesium stearate (vegetable source) and food glaze.

† Specially grown, biologically active vegetable culture containing naturally associated phytochemicals including polyphenolic compounds with SOD and catalase, dehydrated at low temperature to preserve associated enzyme factors.

** Whole beet concentrate from certified organically grown beets.
