- 22 LODGING
- 23 RV PARKING

PEAK ELEVATION: 8,709' • BASE ELEVATION: 7,030' • LONGEST RUN: 2.25 MI. (ACADEMY)

Every time you use freestyle terrain, make a plan for each feature you want to use. Your speed, approach and take off will directly affect your maneuver and landing.

Scope around the jumps first, not over them. Know landings are clear, and clear yourself out of the landing area.

Start small and work your way up. (Inverted aerials not recommended).

**Make a plan.**

**Look before you leap.**

**Easy style it.**

**Respect gets respect.**

Under special use permit
