

Adults of ages 45 and over needed for a UT research study of **memory improvement**. The study uses an FDA-cleared device for low-level light therapy.

The study will last one hour per week, for a total of 6 consecutive weeks.

UT Austin IRB Approved: 12-4-15

To participate, call (512) 593-8370, or email [CognitiveLaserStudy@gmail.com](mailto:CognitiveLaserStudy@gmail.com)
