

Employer Success Story; Help Finding Healthcare Staff in Southbridge

The Family Health Center, based in Worcester, is dedicated to improving the health and well-being of all residents in the Greater Worcester area, especially culturally diverse populations, by providing access to affordable, high quality, integrated, comprehensive, and respectful primary health care and social services, regardless of patients' ability to pay.

In 2014, a satellite facility was opened in Southbridge to provide high-quality primary medical care for families in the surrounding community. Donna Joyce, the Business Services Representative at Workforce Central Career Center in Southbridge, made a connection with the Health Benefit Advisor and established a relationship to provide business services that included assistance with their immediate hiring need for an RN and a Medical Assistant.

Recently, the Family Health Center opened a second facility in Southbridge dedicated specifically to providing dental services. Because of the past service and results they received with Donna's assistance, they invited her for a tour of the new site and requested her aid in filling their hiring needs for a Clerical Assistant and Dental Receptionist.

If your business is interested in learning more about the services available at Workforce Central, please contact your local Business Service Representative.
