National Dialogue on Topics Important to Family Caregivers

Easter Seals and the University of Illinois Family Support Research & Training Center are holding a virtual town hall through March 30th.

Join this national online dialogue to talk about what you think is the most important topic in family support and what you think researchers should focus on over the next several years.

Help us let caregivers know about the dialogue and encourage them to share their thoughts, comment on others' ideas, and vote for important topics. Share information about the dialogue via Twitter through #FSNeedtoknow or #AFDíganos.

Town hall-style forums will be held in both English and Spanish using IdeaScale or you can provide your ideas through a traditional comment form.

Visit FSNeedtoKnow.ideascale.com to post and discuss comments in English or AFDíganos.ideascale.com to participate in Spanish.
