

## 2015 Sponsor Sessions

Sunday, May 3rd, 2pm

**Ecosave**

### **Upgrades with No Debt and No Capital Outlay at Jewish Agencies**

Learn how a JCC lowered operating costs and upgraded failing equipment through a services agreement designed to pay for the upgrades through energy savings. The presentation will explain the model used and how it can be implemented across many organizations.

Sunday, May 3rd, 3:45pm

**SafeLink Wireless**

### **Connecting Your Clients to Employers, Family and Emergency Services**

This informative session will provide an overview of the free cell phone program, SafeLink, and how AJFCA members can enroll the clients they serve. SafeLink Wireless is a Lifeline supported service, provides low-income individuals with a free cellphone and monthly minutes. During this session more details about the program will be provided. The session will cover how agencies can participate, the reimbursement structure and how to order materials.

Monday, May 4th, 10:15am

**Community TechKnowledge**

### **How to Understand and Design an Outcomes-Based Service Delivery Model**

This session will focus on how to better position your nonprofit for increased funding and utilization of best practices - learn how to do more than maintain in 2015. With examples of how actual nonprofits are using outcomes planning & reporting, you'll learn more about the model requirements recommended to enhance your nonprofit's ability to track and report the results of your work.

Monday, May 4th, 1:45pm

**CliftonLarsonAllen**

### **How to Ensure A Sustainable Future**

Many nonprofits face financial situations that constrain their ability to grow and even threaten their existence. A sustainable future is more important now than ever before. During this session we will discuss what sustainability looks like in the nonprofit sector and provide examples of how organizations have created a more stable future. During the session you will work with your peers (both staff and board members) to analyze the key elements of sustainability so you can better understand how to apply them to your nonprofit organization.
