

The Pacific Institute – John L. Scott Broker Testimonials

“What I loved most about the Pacific Institute was that everyone took away something different. This class really made an impact on how I look at my goals, both personally and professionally. The changes that I made after going to the class resulted in business that I would not have gone after otherwise.”

~ Kathy Lawber

“I would highly recommend The Pacific Institute, regardless of your level of success. It has helped me become conscious of my thoughts, and how they impact every aspect of my life. I have learned that success and fulfillment is not hard to achieve once we remove the limits that we put on ourselves. These limits are easy to remove once we become aware of them, as we often do not realize they exist. Since leaving The Pacific Institute, I feel a strong, consistent motivation. I have a new picture in my mind; a picture of success, fulfillment, and compassion. Without doubt, or hesitation, I know exactly where I am going.”

~ Jimmy Vanderford

“The Pacific Institute creates a safe and comfortable environment where you learn life skills. It is broken down scientifically in a way that easily explains why things happen the way they do with how the mind works.

It is eye opening and wherever you are at in your life, you will learn something that will help get you to the next level.

It is worth every minute. I only wish I would have gone 20 years ago.”

~ Shannon Patterson
