

Program Manager – MAT Program for Teens and Adults

Duffy Health Center is currently seeking an experienced health care Program Manager to lead Duffy's Medication Assisted Treatment (MAT) program for opioid addiction. This newly created position is part of our recently expanded treatment program for high risk teens and adults. We seek enthusiastic applicants ready to make an impact on the opioid epidemic through provision of evidence-based treatment on Cape Cod.

The Program Manager will oversee the day to day operations of expanded adult services and new services to teens. S/he will play a critical leadership role in Duffy's interdisciplinary MAT team, and will be a liaison with community partners to ensure access to treatment.

The Project Manager will also ensure funder and evaluation requirements are met, complete necessary reports and participate in quality assurance activities. The ideal candidate will have an appreciation and understanding of issues adolescents and families face and a commitment to vulnerable populations.

For consideration, candidates must have at least two to five years relevant health care project management experience and, a minimum of a Bachelor's degree in a relevant field. Relevant clinical degree or RN a plus.

This position can be either full time or part time depending on candidates qualifications.

.

Please respond with a resume and cover letter including salary expectations to hr@duffyhealthcenter.or or mail to Human Resources, Duffy Health Center, 94 Main Street, Hyannis, MA 02601.
