Duffy Health Center and Whole Foods Hyannis Collaborate to Give Back

Whole Foods Hyannis has generously chosen Duffy Health Center as the recipient of the first 5% Tuesday of the New Year.

On Tuesday, January 5th, 2016 Whole Foods will donate 5% of its net sales on that day to Duffy's "In From the Streets" program. This program offers temporary motel subsidies and multi-agency case management to persons experiencing homelessness. By diverting people from the shelter or other temporary situations, In From the Streets offers case management services and an initial step towards permanent housing, supportive programs and a return to the community. In From the Streets is open to clients from across Cape Cod and is supported by local towns and other human services agencies.

"It may not feel like winter today," says Duffy CEO Heidi Nelson, "but you can be certain it will arrive. And thanks to our friends at Whole Foods Hyannis, we will be prepared to help get people off the streets, into an appropriate housing situation and connected to the right service providers."

Please plan to shop at Whole Foods Hyannis on Tuesday January 5th and help support Duffy Health Center and your neighbors in need.

The mission of the Duffy Health Center is to improve quality of life for persons who are homeless or at risk of homelessness on Cape Cod through community collaborations and the provision of integrated medical, mental health, addiction treatment, case management and housing support services. In 2015 Duffy served more than 3,200 clients from across Cape Cod. For more information or to make a donation please visit our website at www.duffyhealthcenter.org
