PLATFORM DATA:

Let me represent *your* voice. A large role of the Student Director involves relaying all student opinions, thoughts, and actions to the NYSSPA council. Our career is taking a wild turn with the new NCCPA examination changes and we need formal representation when discussing this movement. In order to protect our future and enjoy our PA careers, I plan to formally poll your thoughts to present to the NYSSPA board. Concrete statistics from online polls can be very powerful when making changes. I have demonstrated experience in the areas needed to make this happen: leadership, surveying, and communication.

Residing in our capital, Albany, New York I plan to make your voice heard in legislation. For example, I will attend Lobby Day in the capital to support laws that will aid in gaining autonomy in procedures such as fluoroscopy. As you are aware, NYSSPA plays an important role in initiating the advancement of our PA career across the country.

Lastly, in the past 5 years, this position has not been held by anyone from an upstate NY school; however, if you give me your vote, we can break that trend. Let me represent *your* voice and all of New York as a Student Director to make a difference for all students in NYSSPA.
