

# Movies with a Message

Join us as we screen the groundbreaking documentary about one of America's most shameful and best-kept secrets: the epidemic of rape within the U.S. military. The film paints a startling picture of the extent of the problem - *today, a female soldier serving in a combat zone is more likely to be raped by a fellow soldier than killed by enemy fire. Twenty percent of all active-duty female servicewomen are sexually assaulted.*

Profoundly moving, the film follows the stories of several young servicewomen who were raped and then betrayed by their own officers when they bravely came forward to report. This film is both a rallying cry for the hundreds of thousands of men and women who have been assaulted and a hopeful road map for change.
