Connective tissue is a fundamental part of the body’s physical framework. The body has an amazing ability for regeneration, continually repairing, rebuilding and maintaining itself throughout life. As the body is continually challenged by physical stress, lifestyle and environment, extra support is required to help the natural repair-rebuild-renew process.

To help your patients maintain the body’s vitality at any age, MediHerb offers Gotu Kola Complex and Bone Complex as core products, developed by Kerry Bone to support natural repair of bone, skin and tissue.\*

Bone Complex

Ideal Support for Healthy Bones

- A unique bone support formula, that combines Epimedium, Red Clover, Black Cohosh and Kudzu, herbs that are well-supported by traditional use and research
- Efficacious herbs containing compounds called flavonoids, which research has shown to be beneficial for maintaining strong and healthy bones
- Also supports healthy bone tissue, particularly in mature women (in conjunction with weight-bearing exercise and a healthy diet containing food sources of calcium and vitamin D)
- Beneficial in supporting and maintaining bone density and influencing normal bone remodeling\*

M1145 40 Tablets

Michael E. Greer, MD

Feedback from Michael E. Greer, MD

Prominent clinician, Michael E. Greer, MD, gave us his feedback on using this product for his patients:

“I have used Bone Complex as a product for menopausal women experiencing bone health issues, severe hot flashes, irritability, and anxiety in my integrative medicine practice since it was introduced in the U.S. market. It is a very potent and well-thought-out product with spectacular ingredients and concentrations that may be used once or twice a day.”\*

Gotu Kola Complex is ideal for use with Bone Complex where additional tissue support is required.

Gotu Kola Complex

An Essential for Tissue and Capillary Integrity

- A synergistic blend of Gotu Kola, Grape Seed and Ginkgo leaf to support all types of connective tissue throughout the body including skin, stomach and duodenal tissue
- Formulated by MediHerb experts to support the body’s natural tissue repair process
- Particularly beneficial during times of increased physical stress, promoting normal development of connective and epithelial tissue
- Promotes healthy blood vessels and assists normal circulation
- May also assist the body’s natural tissue drainage process\*

M1313 40 Tablets

To complement Bone Complex and Gotu Kola Complex, MediHerb has a range of synergistic products to provide enhanced connective tissue support.

Boswellia Complex

- Particularly helpful for patients with an active lifestyle to support their joints as they get older
- Contains Boswellia, Celery Seed, Ginger and Turmeric – key herbs for supporting and maintaining healthy joints
- Also beneficial for the body’s normal response to environmental stresses and natural inflammatory response
- Provides musculoskeletal support by assisting in clearing acidic waste from the body, promoting healthy circulation and providing antioxidant protection
- To ensure the important plant constituents are retained throughout manufacture, MediHerb tests the quantity of curcuminoids and boswellic acids\*

M1150 30 Tablets

M1155 90 Tablets

Vitanox®

- Provides powerful antioxidant activity by combining Green Tea, Turmeric, Grape Seed extract and Rosemary in one formula
- A well-balanced formulation that may also support healthy circulation, connective tissue and vascular integrity and cellular health\*

M1462 40 Tablets

M1468 120 Tablets

Horsechestnut Complex

- The herbs Butcher’s Broom, Horsechestnut seed and Ginkgo leaf complement one another to help support healthy blood vessels and circulation
- This formula is also great for maintaining healthy tissue fluid levels
- Each tablet contains standardized levels of key phytochemicals: 36 mg of escin from Horsechestnut, 20 mg of ruscoegenin from Butcher’s Broom and 7.3 mg of ginkgo flavonglycosides from Ginkgo
- To deliver this high quality herbal product MediHerb tests raw materials for important plant constituents in Horsechestnut, Butcher’s Broom and Ginkgo\*

M1340 40 Tablets

Support your body’s tissue repair process with MediHerb’s herbal formulas of unsurpassed quality.
