We Can't Afford To Miss This Event...

Success. We all want it for ourselves and our kids. Seeking it is what drives us to work hard. It's what drives us to excel in life. But how do we know we are successful?

- ▶ In Sammamish, our students are winning state championships **and at the same time leading the state in anxiety levels.**
- ▶ We take pride in the fact that nearly every senior in Sammamish will graduate high school, yet we overlook the fact that **17% of these seniors considered suicide at least once during their senior year.**

Our students know how to meet our expectations for success on the outside...but how many are equipped to handle the internal pressure that comes with those expectations? Are we really as successful as we think?

Join us at Eastlake High School on Tuesday, October 27, at 7pm as Sammamish community leaders get together to answer the question: "Is Your Student Successful?"

No fee or RSVP – all are welcome.
