Hello,

I want to introduce myself as the College and Career Readiness Specialist at Eastlake High School in Sammamish. At EHS, our goal is making sure students are ready for college or the workforce when they leave our doors. When working with our students in figuring out their post-secondary plans, many students have an idea of what they'd like to do but are lacking the knowledge of the daily tasks involved in the job.

I'm working to establish a job shadow program, where we can supply students with a list of businesses in various sectors that would sponsor them for a one-time 2 hour job shadow. With your support, we could give students a valuable opportunity to see what a day in the life looks like!

Please know that by agreeing to be on the list, you will not be receiving cold calls from students. If a student is interested, I will meet with them to review their interest level and availability. Each student and their parents will be signing a Code of Conduct, which will outline appropriate expectations of participating in the job shadow experience. I will then reach out to the business to communicate the student's availability. Once that has been done, I will put the student and contact person in touch via email or phone.

If you are interested in participating, please email me with the contact person and information, as well as a short description of what kind of work the student would be observing.

This opportunity can really have a lasting impact on our students. As a school, we are very appreciative of your work with our students.

Thanks,

Karen Byeman
