

## Presentations offered by Daniel John Bittleston

### Waldorf, Hands-On

Daniel leads workshops to give parents lively experience of the Waldorf curriculum, including math activities with movement, clapping games, storytelling and storymaking, story enacting, form drawing, watercolor painting, poetry writing and reciting, puppetry, toning improvisation, geography, history, movement...

### Waldorf, Background

Daniel elucidates the Waldorf curriculum, in which subjects are the means for teaching character and capacities e.g.: finger games for co-ordinated thinking, knitting for consistency, recorder playing for math mobility, drama for social skills, mythologies for cultural empathy...

### Rudolf Steiner

Daniel is traveling with a colorful exhibition of the life and 'beyond prolific' accomplishments of the initiator of Waldorf, Bio-dynamics and a wide spectrum of practical innovation for cultural renewal, with stories of his thought-provoking and heartfelt support for us in the challenging mysteries of being human...
