

## Architect/Architectural Designer

TBS Services, Inc., one of the oldest architectural firms in our region specializing in the exterior building enclosure, is seeking an Architect/Architectural Designer with 3-5 years' experience to work out of our office in Haddon Heights, NJ, (suburb to Philadelphia). The primary focus of our practice is the design and evaluation of exterior building enclosure systems, for both new and existing buildings.

Prospective employees should be well-versed in the following: AutoCAD/Architectural Desktop; BIM; survey of existing building conditions; report writing; technical aspects of construction detailing; preparation and development of design and construction documentation; shop drawing and submittal review; site observation and construction contract administration; Bluebeam, Microsoft Office and other related software.

Professional License not required.
