Florida Spaceport Transportation Infrastructure Planning

February 21, 2014
New Smyrna Beach Woman’s Club
403 Magnolia Street
New Smyrna Beach

Registration: 11:30 – 12:00
Program/Lunch: 12:00 – 1:00

The presentation introduces the current Florida Spaceport System Plan and the Cape Canaveral Spaceport Complex Master Plan. The Florida Spaceport System Plan is the first ‘state’ spaceport system plan to be developed, while the Cape Canaveral Spaceport Complex Master Plan was derived from the System Plan and Space Florida Spaceport Master Plan 2010. Both of the Plans can be referenced at www.spaceflorida.gov/why-florida by clicking on the Spaceport Planning button on the left hand column.

Lunch will include: Sandwich, Chips and drink.
(Lunch provided by Riverside Catering and Market)
Cost: $10.00, $15.00 for non-members
RSVP: By noon on Monday, February 17th by calling 386-424-2134 or email ghenrikson@cityofnsb.com

AICP Accreditation: pending approval

Mark Bontrager
Vice President of Spaceport Operations

Mark Bontrager joined Space Florida in 2008 and currently serves as the Vice President for Spaceport Operations. In this role, Mark leads the planning and development of space transportation infrastructure improvement projects for Space Florida’s spaceport holdings and the Florida Spaceport System Plan.

Mark is responsible development and operations of Space Florida’s spaceport assets including multiple launch complexes, launch vehicle processing facilities, and payload processing facilities.

Mark Bontrager holds a B.S. in Computer Engineering from the University of Florida, a Master’s of Engineering from the University of Colorado at Boulder, a Masters in National Security Studies from the Naval War College, and a Masters in Airpower Art and Science from the School of Advanced Airpower Studies at Maxwell AFB in Alabama.
