Independent, Science-Based Research Confirming No Elevated Human Health or Environmental Risk from Synthetic Turf with Crumb Rubber Infill
1998 – 2014

1. Tabor Academy – Synthetic Turf Athletic Field Evaluation
   CDM Smith, March 13, 2014

2. Artificial turf football fields: environmental and mutagenicity assessment
   Schilirò, T1, et al., Arch Environ Contam Toxicol, 2013

3. Bioaccessibility and Risk of Exposure to Metals and SVOCs in Artificial Turf Field Fill Materials and Fibers
   Environmental and Occupational Health Sciences Institute, Robert Wood Johnson Medical School, 170 Frelinghuysen Road, Piscataway, NJ, 2013

4. Review of the Human Health & Ecological Safety of Exposure to Recycled Tire Rubber found at Playgrounds and Synthetic Turf Fields
   Prepared for Rubber Manufacturers Association by Cardno ChemRisk, Inc., an independent global scientific consulting firm, August 1, 2013

5. Artificial turf football fields: environmental and mutagenicity assessment
   Department of Public Health and Microbiology, University of Torino, Italy, 2012

6. Crumb Infill and Turf Characterization for Trace Elements and Organic Materials
   Dr. Paul J. Lioy and Dr. Clifford Weisel, Environmental and Occupational Health Sciences Institute, Robert Wood Johnson Medical School, October 31, 2011

7. An Evaluation of the Health and Environmental Impacts Associated with Synthetic Turf Playing Fields University of Connecticut Health Center
   Connecticut Agricultural Experiment Station, Department of Public Health, Connecticut Department of Environmental Protection, July 2010

   • Artificial Turf Field Investigation in Connecticut Final Report
     Nancy Simcox, Anne Bracker, John Meyer, Section of Occupational and Environmental Medicine, University of Connecticut Heath Center, July 2010
• **DEP Artificial Turf Stormwater Study**  
  University of Connecticut Health Center, The Connecticut Agricultural Experiment Station, the Department of Public Health and DEP, July 2010

• **Human Health Risk Assessment of Artificial Turf Fields Based upon Results from Five Fields in Connecticut**  
  Connecticut Department of Public Health, Program in Environmental and Occupational Health Assessment, July 2010

• **Peer Review of an Evaluation of the Health and Environmental Impacts Associated with Synthetic Turf Playing Fields**  
  Connecticut Academy of Science and Engineering, June 2010

• **2009 Study of Crumb Rubber Derived from Recycled Tires Final Report**  
  Xiaolin Li, William Berger, Craig Musante, MaryJane Incorvia Mattina, Connecticut Agricultural Experiment Station, Department of Analytical Chemistry, May 2010

13. **Hydroxypyrene in urine of football players after playing on artificial sports field with tire crumb infill**  

   Simon, Rachel, University of California, Berkeley, Laboratory for Manufacturing and Sustainability, February 2010Prepared for: The Corporation for Manufacturing Excellence (Manex)

15. **Safety Study of Artificial Turf Containing Crumb Rubber Infill Made from Recycled Tires: Measurements of Chemicals and Particulates in the Air, Bacteria in the Turf, and Skin Abrasions Caused by Contact with the Surface**  
   Office of Environmental Health and Hazard Assessment, Department of Resources Recycling and Recovery, Editor. 2010, State of California

16. **A Scoping-Level Field Monitoring Study of Synthetic Turf Fields and Playgrounds**  
   National Exposure Research Laboratory Office of Research and Development U.S. Environmental Protection Agency, 2009

17. **Air Quality Survey of Synthetic Turf Fields Containing Crumb Rubber Infill**  
   New York City Department of Health and Mental Hygiene, 2009

18. **An Assessment of Chemical Leaching, Releases to Air and Temperature at Crumb-Rubber Infilled Synthetic Turf Fields**  
   Lim, L. and R. Walker, New York State Department of Environmental Conservation and Department of Health, Editor, 2009
   Hofstra, U., INTRON, March 2009

20. Chemicals in Outdoor Artificial Turf: A health risk for users?
    Beausoleil, Monique et. al, Public Health Branch, Montreal Health and Social Services Agency,
    June 2009

21. A Review of the Potential Health and Safety Risks from Synthetic Turf Fields Containing Crumb
    Rubber Infill
    Elizabeth Denly, Katarina Rutkowski, Karen M. Vetrano, Ph.D., TRC, Prepared for NYC
    Department of Health and Mental Hygiene, May 2008

22. CPSC Staff Finds Synthetic Turf Fields OK to Install, OK to Play On

23. Evaluation of Potential Environmental Risks Associated with Installing Synthetic Turf Fields on
    Bainbridge Island
    D. Michael Johns, Ph.D., Windward Environmental LLC, Seattle, WA, February 2008

24. Evaluation of Playing Surface Characteristics of Various In-Filled Systems
    McNitt, A.S., 2008 April 9, 2008

25. Evaluation of the Environmental Effects of Synthetic Turf Athletic Fields
    Bristol, S.G. and V.C. McDermott, Milone & MacBroom, Inc., December 2008

26. Fact Sheet: Crumb-Rubber Infilled Synthetic Turf Athletic Fields
    New York City Department of Health, August 2008

27. Follow-up Study of the Environmental Aspects of Rubber Infill
    Hofstra, U., INTRON, 2008

28. Initial Evaluation of Potential Human Health Risks Associated with Playing on Synthetic Turf
    Fields on Bainbridge Island
    D. Michael Johns, Ph.D., Windward Environmental LLC, Seattle, WA, January 2008

29. Hazardous Chemicals in Synthetic Turf Materials and Their Bioaccessibility in Digestive Fluids

30. Rubber Crumb Health Risk Evaluation
    Lamie, P. Memorandum to: Richard Reine, Director Concord Public Works, April 24. 2007

31. Synthetic Playfields Task Force Findings and Department Recommendations
    San Francisco Recreation and Park Department, 2008
32. Environmental and health assessment of the use of elastomer granulates (virgin and from used tyres) as infill in third-generation artificial turf
   Dr. Robert Moretto, ADEME / ALIAPUR / FIELDTURF TARKETT, 2007

33. Environmental and Health Risks of Rubber Infill: Rubber crumb from car tyres as infill on artificial turf
   Hofstra, U., INTRON, January 2007

34. Evaluation of Health Effects of Recycled Waste Tires in Playground and Track Products

35. Evaluation of health risks caused by skin contact with rubber granules used in synthetic turf pitches
   Dr. Christa Hametner, Vienna, Dr. Hans Theodor Grunder, Berlin, 2007

36. Leaching of zinc from rubber infill on artificial turf (football pitches)
   Laboratory for Ecological Risk Assessment, 2007

37. Nitrosamines released from rubber crumb
   van Bruggen, M., E.M. van Putten, and P.C.J.M. Janssen, 2007, RIVM: Bilthoven, the Netherlands

38. Preliminary Assessment of the Toxicity from Exposure to Crumb Rubber: its use in Playgrounds and Artificial Turf Playing Fields
   Thomas Ledoux, Ph.D., New Jersey Department of Environmental Protection, June 2007

39. Re: Ambient Air Sampling for PAH's, Schreiber High School Football Field (101 Campus Dr., Port Washington, NY 11050; Sampling Date: October 17, 2007)

40. Artificial turf pitches – An assessment of the health risks for football players
   Norwegian Institute of Public Health and the Radium Hospital, 2006, Oslo. p. 1-3

41. An Open Letter concerning the potential cancer risk from certain granulate infills from artificial turf
   FIFA, Prof. Dr. Jiri Dvorak, July 2006

42. Synthetic Turf from a Chemical Perspective - A status report
43. Measurement of non-exhaust particulate matter
   Luhana, L., et al., 2004, Deliverable 8 of European Commission DG TrEn 5th Framework
   PARTICULATES Project

44. Environmental Risk Assessment of Artificial Turf Systems

45. Potential health and environmental effects linked to artificial turf systems – final report
   Plesser, Thale S.W., Lund, J. Ole, Norwegian Building Research Institute, September 2004

46. Toxicological Evaluation for the Hazard Assessment of Tire Crumb for Use in Public Playgrounds

47. Child-Specific Exposure Factors Handbook

48. Five Year Study of the Water Quality Effects of Tire Shreds Placed Above the Water Table
   Humphrey, D.N. and E.K. Lynn, Department of Civil and Environmental Engineering, University of Maine, March 2001

49. Emission Characteristics of VOCs from Athletic Tracks

50. Environmental Impacts of Recycled Rubber in Light-Fill Applications
   Liu, Helen S., et. al., Department of Plastics Engineering, University of Massachusetts Lowell, August 1998
