WORKING FROM WITHIN: CHANGING GROUPS FOR MEN WHO USE VIOLENCE IN RELATIONSHIPS.

Workshop description:

Nationally-known experts Mederos and Cardona speak and write regularly on Batterers Intervention and group facilitation. In this interactive seminar, you'll hear about their fatherhood and trauma legacies and experience these pathways. You'll gain special training and tools to help men in groups undertake these explorations and remain focused on responsibility and healing. New ideas on how to create a supportive community of self-inquiry, responsibility and deep understanding of abusive relationships will be shared.
