Construction

OSHA 510

Occupational Safety and Health Standards for Construction

Bowling Green: February 9-12

\$750 26 hours

This course for private sector personnel covers OSHA policies, procedures, and standards, as well as construction safety and health principles. Topics include scope and application of the OSHA construction standards. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide.

OSHA 500

Trainer Course for Construction

Bowling Green: January 12-15 • September 20-23

\$750 26 hours

This course is designed for personnel in the private sector interested in teaching the 10- and 30-hour construction safety and health outreach program to their employees and other interested groups. Special emphasis is placed on those topics that are required in the 10- and 30-hour programs as well as on those that are the most hazardous, using OSHA standards as a guide. Course participants are briefed on effective instructional approaches and the effective use of visual aids and handouts, and engage in practice teaching modules.

During class, students must prepare a presentation on an assigned OSHA Construction Outreach topic individually or as part of a group and successfully pass a written exam at the end of the course. Authorized OSHA Outreach trainers are required to attend OSHA 502 at least once every four (4) years to maintain their trainer status. Upon successful completion, the student will be authorized as an OSHA Construction Outreach Trainer. This authorization is effective for four (4) years.

*** You must call to register for this class**

Prerequisites: OSHA 510 and five years of construction safety experience. A college degree in occupational safety and health, a Certified Safety Professional (CSP) or a Certified Industrial Hygienist (CIH) designation in the applicable training area may be substituted for two (2) years of experience.

General Industry

OSHA 511

Occupational Safety and Health Standards for General Industry

Bowling Green: May 24-27

Owensboro: June 27-June 30

\$750 26 hours

This course for private sector personnel covers OSHA policies, procedures, and standards, as well as general industry safety and health principles. Topics include scope and application of the OSHA general industry standards. Special emphasis is placed on those areas that are the most hazardous.

OSHA 501

Trainer Course for General Industry

Bowling Green: July 19-22

\$750 26 hours

This course is designed for personnel in the private sector interested in teaching the 10- and 30-hour general industry safety and health outreach program to their employees and other interested groups. Special emphasis is placed on those topics that are required in the 10- and 30-hour programs as well as on those that are the most hazardous, using OSHA standards as a guide. Course participants are briefed on effective instructional approaches and the effective use of visual aids and handouts, and engage in practice teaching modules.

During class, students must prepare a presentation on an assigned OSHA General Industry Outreach topic individually or as part of a group and successfully pass a written exam at the end of the course. Authorized OSHA Outreach trainers are required to attend OSHA 503 at least once every four (4) years to maintain their trainer status.

Upon successful completion, the student will be authorized as an OSHA General Industry Outreach Trainer. This authorization is effective for four (4) years.

*** You must call to register for this class**

Prerequisites: OSHA 511 and five years of general industry safety experience. A college degree in occupational safety and health, a Certified Safety Professional (CSP) or a Certified Industrial Hygienist (CIH) designation in the applicable training area may be substituted for two (2) years of experience.

OSHA 7500

Introduction to Safety and Health Management

Richmond: April 19 • August 11

Bowling Green: November 3

\$250 5.5 hours

This course covers the effective implementation of a company's safety and health management system. The course addresses the four core elements of an effective safety and health management system and those central issues that are critical to each element's proper management. This course is an interactive training session focusing on class discussion and workshops. Upon course completion students will have the ability to evaluate, develop, and implement an effective safety and health management system for their company.

OSHA 7505

Introduction to Accident Investigation

Richmond: April 21

Bowling Green: November 2

\$250 7.5 hours

This course covers an introduction to basic accident investigation procedures and describes accident analysis techniques. Course topics include reasons for conducting accident investigations, employer responsibilities related to workplace accident investigations, and a six step accident investigation procedure. The target audience is the employer, manager, employee or employee representative who is involved in conducting accident and/or near-miss investigations. Upon course completion students will have the basic skills necessary to conduct an effective accident investigation at the workplace

OSHA 7845

Recordkeeping Rule Seminar

Richmond: April 25 • August 22 • November 14

Louisville: March 7

Bowling Green: January 11 • July 18 • November 1

\$250 4 hours

This course is designed to assist employers in identifying and fulfilling their responsibilities for posting certain records, maintaining records of illnesses and injuries and reporting specific cases to OSHA

OSHA 7105

Evacuation and Emergency

Owensboro: October 14

\$250 4 hours 8:00 to Noon

Evacuation and emergency planning focuses on OSHA requirements for emergency action plans and fire protection plans. Preparing for emergencies is a basic principle of workplace safety and health. Participants will learn: (1) reasons for emergency action plans and fire prevention plans and when they are required for a workplace; (2) elements of a good evacuation plan; and (3) features of design and maintenance of good exit routes. The optional session for this course will focus on assessment of risk for terrorist attack and how to utilize OSHA's two matrices, evacuation planning and fire and explosion, as tools in planning for emergencies.

OSHA 7205

Health Hazard Awareness

Richmond: May 9

Owensboro: October 13

\$250 6 hours 8:00 am to 3:00 pm

This course covers common health hazards that are encountered in the workplace. These health hazards include exposure to chemicals, asbestos, silica and lead. Course topics include identification and evaluation of health hazards and their sources of exposure, health hazard information, and engineering and work practice controls. Students participate in workshops on evaluation and abatement of workplace health hazards. Upon course completion students will have the ability to understand common health hazards in the workplace and methods for controlling and abatement of these hazards.
