

Corporate & Community Partner Program

The University at Buffalo's NYS Center of Excellence in Bioinformatics & Life Sciences (CBLS) is a hub for life science innovation and technology-based economic development. Every day at the CBLS we connect researchers, businesses and other key players in the growing life sciences industry.

As a CBLS Corporate & Community Partner you will be helping companies get the funding they need to thrive, scientists gain access to world-class facilities, workers get hired for newly created jobs and investors realize business opportunities. Below is a list of the CBLS benefits you'll receive as part of the Corporate & Community Partner Program. **Please note, these benefits run from July 1, 2015–June 30, 2016.**
