

Chronic Wasting Disease Situation Report- November 2, 2012

PDA Update

Eight of the nine deer taken at Ronald Rutters' farm have tested negative. The 9th one, 840003000162979, has a suspect positive lymph node and has been sent to National Veterinary Services in Ames, Iowa yesterday for confirmation.

As of today, the escaped deer with a pink 23 tag (RE) and a metal tag (LE) still has not been found. USDA-Wildlife Services are continuing to observe the site. Seven cameras are located on the premise and on the adjacent property.

Industry Task Force meeting was held this morning at 9:00 a.m. in the Commonwealth Room of the Farm Show Complex, Harrisburg, PA. PDA and Game Commission both gave an update on current tasks within each agency. Industry organizations were present to ask questions and voice concerns.

PDA press office has been continuing to monitor CWD articles in the news. PDA press office is working with reporters to correct false printed information.

As of today, CWD has not been found in the wild whitetail populations in Pennsylvania.
