*F*all, for many families, means “Back To School!” But here at Saddleback Community Education, “Back To School!” means something a bit different. We encourage people of all ages to embrace lifelong learning – and we are committed to providing opportunities that enrich people’s lives all year around.

Fall 2016 is a very special time for us. It marks the beginning of a year-long celebration of our 40th anniversary! That’s right! For 40 years now, we have been offering not-for-credit classes for lifelong learners from ages 2 to 102. This celebration will continue throughout the year, culminating in a special event scheduled for May 4, 2017. Mark your calendars!

When Community Education kicked off in 1976, we had a vision for developing classes that encouraged people of all ages to expand their horizons, learn new things, and enrich their lives. Three years ago, in 2014, the strength of our vision resulted in Saddleback College’s establishment of the Division of Community Education, Emeritus Institute, and K-12 Partnerships. Our new division encompasses not-for-credit and non-credit classes for people of all ages and from all backgrounds. The Emeritus Institute promotes lifelong learning by providing academically rigorous, mentally stimulating, socially engaging, and health improving courses for older adults; K-12 Partnerships brings College For Kids, and After-School and Summer Experience programming to school-aged children. Our division also includes the Community Outreach and Recruitment department, which presents Saddleback College as a first choice to potential students and assists them in the transition to college life, and Adult Education, which assures that adults 18 and over have a chance to learn English as a Second Language, gain U.S. Citizenship, or earn high school equivalency or a diploma.

We believe the programs offered throughout the pages of the Fall 2016 Gaucho Guide fulfill our Community Education department’s commitment to providing personal enrichment classes that help people explore new talents, enhance their careers or become entrepreneurs, embark on travel adventures, improve their bodies, expand their minds, become better citizens, learn new languages, and embrace new technologies.

Today, our vision is to continue to expand our reach and broaden the scope of our programs to meet the lifelong learning needs of each and every individual in the Saddleback College communities we serve. Welcome back to Saddleback Community Education! Welcome back – to lifelong learning.

If you can find middle C, and know the meaning of Every Good Boy Does Fine, you already know enough to enroll in this workshop. If not, ask for a free piano preparation pamphlet. How To Play Piano By Ear

Ages 18+

Contrary to popular belief, anyone can learn to play piano by ear. This workshop shows you the inside secrets professional piano players use (but never reveal). You'll learn how to pick tunes right out of your head. In addition, you will learn how to get songs off the radio (think of the money you'll save on sheet music). You'll even learn how to transpose. This workshop goes beyond mere "ear training" — you'll obtain information found nowhere else, and you'll be picking out tunes by ear — with both hands — from the very first day. Open to musicians (not just piano players) who have a basic understanding of chord theory. Beginners should take "Instant Piano For Hopelessly Busy People" as a prerequisite for this class.
