

Oktoberfest Event Recap

By: Peter Leto, Bodman PLC

On September 24, Brew Detroit graciously hosted the Risk Management Association East Michigan Chapter for an Oktoberfest-themed networking event. In the spirit of Oktoberfest, the evening was filled with beer tasting, various appetizers, and a guided tour that showcased the art of making craft beer and delicious food provided by Slows Bar BQ. As expected, the event was well attended and an all-around, success.

Brew Detroit is a contract brewery located in Corktown that helps to produce Kid Rock's Badass American Lager, Motor City Brewing Works, Atwater, and other local craft beer favorites. Their impressive 61,000 square-foot facility made for an interesting tour, and the accommodations provided in the "tasting room" helped make Brew Detroit the perfect venue for our chapter's latest networking event.

As our thirst for craft beer was being quenched, conversations filled the air, illustrating how the Risk Management Association does networking right. Thanks to everyone who helped to put the event together and to all of the RMA members, and their guests, who were able to attend and make this a truly special event. We look forward to celebrating Oktoberfest with everyone again next year!
